Premium performance. Lasting style.

NATURAL BEAUTY

The Shingle Color of the Year, Williamsburg Gray, was created to bring something new to a classic look. Our design team was inspired by nature, taking cues from river-washed rocks and granite cliffs to craft a unique shingle color. Up close you see a complex mix of different colored granules—slate grays, volcanic blacks, earthy browns. From the curb they blend to create a wonderfully elegant yet understated look perfectly suited to numerous exterior palettes.

COLOR DISCLAIMER

As color experts, we know getting the shingle color right is a big part of any roofing purchase. Due to printing color variations, in addition to viewing shingle literature, we suggest you request an actual shingle sample to see how it will appear on your home and with your home's exterior elements in various natural lighting conditions. Lastly, we recommend you verify your color choice by seeing it installed on an actual home; your roofing contractor or supplier can provide a sample and may be able to direct you to a local installation.
